Look Up Checkpoint Sites

This chapter explains how to look up CheckPoint inspection sites.

To access the Checkpoint Page, select it from the main menu.

The CheckPoint Screen displays.

Checkpoint Page

The following is an example Checkpoint Page lookup with sample data based on a name search. You can search by city, name, zip code or contact.

![Checkpoint Page screenshot](image)

The example above shows the list that displays after selecting by name and filtering by the name "Apple."
